COLOR GEL for nail art or as semi-permanent nail polish

COLOR GEL AS NAIL ART

Use the following steps after completing a full set of Gelée nails or a fill before applying topcoat gel sealer.

1. Spray nails with the Gelée antiseptic cleanser and wipe nails clean.
2. Apply a thin coat of Gelée base, or use the #4 gel brush to polish on any color gel on the nails you wish to decorate.
3. Using the striper brush, choose one to three colors of gel, apply to the nail in either straight line, diagonal line or in scattered dots. Colors can be laid on top of each other (Be sure to clean the brush between each color.)
4. Using the same brush, swipe through the colors causing them to blend together or through each other, (note: swipe it in any direction you desire).
5. Place under UV light for 3 minutes.
6. Remove from UV light and apply one coat of Gelée Top coat sealer.
7. Place under UV light for 1 minute.
8. Remove from UV light and apply a second coat of Gelée Top coat sealer. Make sure to cover all round free edges.
9. Place under UV light for 2 minutes.
10. Remove from UV light and spray generously with Gelée Cleanser onto a lint-free nonwoven and also onto the nails. Gently wipe off the sticky residue.

COLOR GEL AS SEMI-PERMANENT NAIL POLISH

1. Paint color gel on nails using #4 gel brush making sure you have complete coverage on entire nail. Make sure to cover all around free edges
2. Place nails under UV light for one minute and a half.
3. Remove from UV light and apply a second coat of color gel if desired
4. Cure under UV light for three minutes.
5. Remove nails from UV light and apply Gel top coat sealer. Make sure to cover all round free edges.
6. Cure for one minute
7. Remove and apply second layer of Gel top coat sealer
8. Cure for two minutes
9. Remove from UV light and spray generously with Gelée Cleanser onto a lint-free nonwoven and also onto the nails. Gently wipe off the sticky residue.

Use these same Color Gel steps on your Acrylic,
Silk, Fiberglass and any other type of artificial nail systems.
